

SIDNEY SUSSEX COLLEGE
**Protocol for self-isolation, household-isolation and
quarantine in College**

Version: 10
Author: Domestic Bursar / Nurse / Registrar
Date last reviewed: 14 July 2021 WG-Ops
Next review: Fortnightly until otherwise determined

Revision History

Version	Author	Summary of changes	Review date
7	Registrar /Nurse	<ul style="list-style-type: none"> p4 What you can do to help yourself get better section – NHS advice link added p6 Length of isolation period when multiple positives emerge within the same household – clarification re rules has been added p6 and 7 Rules: ‘Stay in Your Room’ and ‘Shared facilities’ sections – clarification provided that isolating but asymptomatic household members may visit one another’s rooms but it is a case for individual risk assessment. Sentence added about considering how can support a housemate who is COVID positive or symptomatic and confined to their room p7 Rules: ‘Shared facilities’ section – new rules added on access to college gardens whilst in isolation p7 Rules: ‘Store of waste’ section – rule added that if symptomatic or COVID, should double bag, tie up, and label date of closure of waste and store in own room for 72 hours before putting outside door and asking a housemate to add to the central kitchen bin p8 Rules: ‘No direct access to laundry facilities’ section – additional information added as to ability to request bed linen and towels from Accommodation Department, as well as detergent for hand washing clothes. Instruction that must retain all used bed linen in room until end of self-isolation, and instruction on what to do with it at end of isolation period. Also added that at end of self-isolation, if symptomatic and/or COVID positive, you must not use a shared laundry facility for a further 72 hours after your isolation period has ended. P8 Rules: Guidance added as to what to do with library books (either in possession or needed) whilst in isolation 	04.11.20 WG-Ops
8	COVID coordinator	<p>All below rules where 15 days of self-isolation is required has now changed to 10 days as follows;</p> <ul style="list-style-type: none"> P6 Rules: Actions for students who are instructed to self-isolate AND are asymptomatic. Where one or more members of the household has been instructed to self-isolate AND is asymptomatic. P7 Rules: Length of isolation period when multiple positives emerge within the same household. P10 Rules: Resident Fellows or Associates (isolation procedure) P11: Flowchart 	13.01.21 WG-Ops
9	Registrar	Change to outside exercise provision for those in quarantine and isolation – made the same for both groups p10	20.01.21 WG-Ops
10	Registrar	Updated section A in view of introduction of red list countries and different procedure on arrival from these countries	02/02/21
11	COVID coordinator	Updated section A in view of introduction of the new ‘traffic light system’ for overseas arrivals.	13/05/21
12	COVID coordinator	Updated section A in view of no longer required to self-isolate if instructed to do so due to close contact.	14/07/21

This document outlines:

- A. When you need to quarantine upon returning to Cambridge
- B. When you need to self-isolate
- C. When an entire household needs to self-isolate
- D. The rules and guidelines when in quarantine or self-isolation

Everybody's active co-operation will be essential to keep Sidney COVID-secure in the 2020-21 academic year.

A: Quarantine requirements

1. Do I need to quarantine upon return to Cambridge? If you are travelling to the UK from overseas there will be different restrictions applied, known as the '**traffic light system**', depending on the level of risk that arises due to the country you are travelling from. Risk will be based on factors such as the level of community transmission, variants of concern, levels of testing, genomic sequencing and reporting in the country travelled from. Countries will be sorted into three categories:

- Red list countries: High-risk countries
- Amber list countries: Moderate-risk countries
- Green list countries: Low-risk countries

Students will need to comply with the appropriate measures set out by the UK Government, depending on which country they have departed from/travelled through in the preceding 10 days. The list of 'red, amber, green' countries will be regularly updated and can be found here, along with the quarantine procedure that must be followed: <https://www.gov.uk/guidance/red-amber-and-green-list-rules-for-entering-england>

2. How long does quarantine last? If you return for any part of the summer vacation and Michaelmas Term, you will need to quarantine for ten full days, counting from the day after you leave a country in the red or amber zone. **Please note** – if you are travelling from an amber country and you have been fully vaccinated you will not be required to self-isolate.

3. Can I cut quarantine by taking a covid-test? You must take a coronavirus (COVID-19) test on day 2 and day 8 of quarantining but a negative result does not entitle you to reduce your quarantine. Furthermore, if you have travelled from a red list country, you will not be able to use the Test to Release Scheme. If, however, you have travelled from a non-red list country, you can use the Test to Release scheme and may arrange for an eligible private test to be taken on your fifth day in quarantine: receipt of a negative result would trigger your immediate release from quarantine

4. Does the university offer 'test and release' eligible tests? No: its resources are fully invested in securing the continuation at scale of the Asymptomatic Screening Programme which played a big part in containing the incidence of the virus last term.

5. Will the college pay for my eligible test, if I arrange one privately? No: its student support budget is reserved to alleviate cases of financial hardship. In exceptional circumstances – if early release from quarantine is absolutely necessary for academic reasons, and if the cost of the test is likely to result in financial hardship, the college may consider providing hardship support.

6. Where can I read more about the UK's quarantine requirements for students returning to study for the Easter term?

- www.gov.uk/guidance/how-to-quarantine-when-you-arrive-in-england#what-you-must-do-before-you-travel
- [University's COVID-19 Information for Students Arriving from Abroad](#)

7. What should I do on arrival in College?

- When you travel to Cambridge, just like every student, remember to bring along:
- face coverings (we recommend bringing around six washable face coverings)
- a digital thermometer
- hand sanitizer
- a box of Paracetamol
- Personal Laundry: As of this term, all students must bring their own bed linen and

towels. Please ensure that you bring with you sufficient clothing and linen to last you for the quarantine period. If you have been unable to bring your own linen, inform accommodation@sid.cam.ac.uk before you arrive, and linen will be provided by College for the period of self-isolation

- g. On first arrival to College, go directly to your room where you will find your 'Quarantine Starter Pack' alongside your room key, etc. If you live in a hostel, your pack and key will be in your pigeon hole.
- h. Make your way directly to your assigned room, noting the [boundaries of the "student household"](#) to which you belong including its bathroom/toilet(s) and kitchen.
- i. Once in your room please unpack your "Quarantine Starter Pack" which will contain a copy of this document for easy reference, some "Quarantine Door Notices" (see examples at the end of this protocol), Blue-Tac to fix the notices to the doors, rubbish bags and cleaning clothes.
- j. Using the BlueTac provided, immediately affix [the filled-in "Quarantine Notices"](#) to your room door, and to the doors of any shared bathroom and toilets, and to the kitchen door. This is to inform others in your "household" i.e. those individuals who are sharing a kitchen, bathroom/toilet facilities with you, and the staff, that you are in quarantine.
- k. Email NotifyHealth@sid.cam.ac.uk subject line "Notification of start of Quarantine – [name] [surname]", so that College records can be updated accordingly.
- l. Food and other essential purchases. You may wish to place an on-line supermarket order in advance of your arrival (check now – you may need several days' notice), for a first stock of essentials to be delivered to College/your hostel on your arrival date, so as to have something to start with. As soon as possible, agree with a non-quarantining fellow Sidney student to act as your Quarantine Supporter (QS), who will order and collect food and other essentials on your behalf, leaving them outside your door for you to collect, and generally help you with matters which you cannot attend to while quarantining. If you are unable to find a QS, please let NotifyHealth@sid.cam.ac.uk so that we can make alternative arrangements to support you.

8. **What college support is available for students in on-arrival quarantine?** We aim to provide the same level of support which was available in the run-up to the start of Lent and Easter Term. If you quarantined then, you will be already familiar with it; otherwise, for further details, please see the self-isolation rules and guidelines section of this protocol (section D).

B: Self-isolation requirements

1. Actions for students who are COVID-positive and/or symptomatic

If you have tested COVID-positive or experience COVID-like symptoms, you and every member of your household¹ **must immediately** self-isolate and follow the steps below.

- Fill in the [Sidney Sussex COVID-19 notification form](#) immediately when entering self-isolation, **whether symptomatic and/or with a positive COVID result**, and inform all your co-residents in your household. You must fill in the [University's COVID monitoring form](#) as soon as possible. Contact NotifyHealth@sid.cam.ac.uk if you require assistance from the College at any stage.
- The College will soon make contact via email once you have filled in the [Sidney Sussex COVID-19 notification form](#). The College will check that you have everything you need for the isolation period and will arrange for appropriate signage to be delivered to the household. The household is collectively responsible for displaying the signage in the appropriate locations (household boundaries, symptomatic student's room door, bathroom and kitchen). See example signage at the end of this protocol.
- If you have symptoms, you must self-isolate for **ten full days** from the date of first symptoms or the swab date of the positive test.
- If you are symptomatic (a high temperature, a new, continuous cough, a loss or change to your sense of smell or taste) you should immediately arrange to be tested by following the guidance outlined in the [University's Stay Safe Campaign](#). Please do not hide any symptoms which might be COVID-19.
- You should keep the College and University updated with **any** changes to your status (whether you become symptomatic OR you have received a test result) by resubmitting in [Sidney Sussex COVID-19 notification form](#) AND updating the [University's COVID monitoring form](#).

What can you do to help yourself get better?

✓	How to treat coronavirus symptoms at home See NHS advice on treating coronavirus symptoms at home
✓	Over-the-counter medications You can use over-the-counter medications, such as paracetamol, to help with aches, pains and a high temperature. Use these according to the instructions on the packet or label and do not exceed the recommended dose. If you do not have these to hand your household may be able to help (and can leave outside your door) or you can ask if notifyhealth@sid.cam.ac.uk can help get you some medicine.

¹ Including anybody in a support bubble with your household

When to seek medical advice

You should seek prompt medical attention if your illness is worsening.

If it's not an emergency, contact your GP in working hours or [NHS 111 online](#). Call 999 for an emergency. Please inform the Porters (+44(0)1223 338800) if you have an ambulance attending.

2. Actions for students who are instructed to self-isolate AND are asymptomatic

If you have been instructed to self-isolate AND you are symptomatic and/or have had a positive COVID-test result, you must follow the guidance above in section B 1: *Actions for students who are COVID-positive and/or asymptomatic*

Otherwise, you may find that you are asymptomatic but have been asked to immediately self-isolate if you are contacted by NHS Test and Trace, and/or by the College. If you are asymptomatic and have been instructed to self-isolate you must follow the steps below

- Fill in the [Sidney Sussex COVID-19 notification form](#) immediately when entering self-isolation because you have been instructed to self-isolate. You must also fill in the [University's COVID monitoring form](#) as soon as possible. Contact NotifyHealth@sid.cam.ac.uk if you require assistance from the College at any stage.
- The College will soon make contact via email once you have filled in the [Sidney Sussex COVID-19 notification form](#). The College will check that you have everything you need for the isolation period and will arrange for appropriate signage to be delivered to the household. The student is responsible for displaying the signage in the appropriate locations (asymptomatic student's room door, bathroom and kitchen). See example signage at the end of this protocol.
- You must self-isolate for **ten full days** from the date you were asked to self-isolate.
- If you become symptomatic (a high temperature, a new, continuous cough, a loss or change to your sense of smell or taste) you should immediately arrange to be tested by following the guidance outlined in the [University's Stay Safe Campaign](#). Please do not hide any symptoms which might be COVID-19.
- You should keep the College and University updated with **any** changes to your status (whether you become symptomatic OR you have received a test result) by resubmitting in [Sidney Sussex COVID-19 notification form](#) AND updating the [University's COVID monitoring form](#).

C: Household isolation requirements²

1. Where one or more members of the household is symptomatic or COVID-positive

An entire household will be required to self-isolate if one or more members of that household is symptomatic or COVID-positive. Isolating households must maintain social distancing within the household for **ten full days** from the date your housemate experienced their first COVID symptoms or from the swab date of their positive test.

If you are entering household-isolation each member must fill in the [Sidney Sussex COVID-19 notification form](#) and the [University's COVID monitoring form](#).

2. Where one or more members of the household has been instructed to self-isolate AND is asymptomatic

An entire household is not required to self-isolate if a fellow housemate has been instructed to self-isolate AND is asymptomatic (see '[Instructed to self-isolate AND asymptomatic - Actions](#)' for more detail). For example, if a fellow housemate has been instructed to self-isolate by NHS Test and Trace and is asymptomatic, only that student is required to self-isolate and not the entire household.

3. Length of isolation period when multiple positives emerge within the same household

As explained above, a COVID-positive student must self-isolate for ten days from confirmation of infection, and the other residents of that household for 10 days from the same date. **The isolation period remains unchanged for non-symptomatic students, should further positives be confirmed within that 10 day-period.** The reasoning here is that any further positives are part of the same transmission episode, so any co-residents who have not become symptomatic within the initial 10 days have not been infected, and therefore do not need to isolate for longer. The isolation period for COVID-positive students may need to be extended beyond 10 days if they remain symptomatic. Should another member of the same household become positive after the initial 10 days have passed a new isolation period for the whole household (including those previously positives) will begin.

² Including anybody in a support bubble with your household

D: Rules and guidance for the quarantine and isolation period

✓	<p>Stay inside your room</p> <p>Quarantine</p> <p>For the duration of your quarantine, you must remain in your room at all times, <u>except to use</u> your designated bathroom/toilet and kitchen facilities, or in order to take up to two hours of exercise per day (see exercise provision in 'Shared Facilities' section below).</p> <p>Symptomatic or COVID positive</p> <p>Those in household isolation who are symptomatic or COVID positive must stay inside their room at all times except to use their designated bathroom/toilet and kitchen facilities. They must clean surfaces and utensils after use and only use the shared facilities alone, see 'Shared Facilities' section.</p> <p>Asymptomatic or COVID negative</p> <p>Those in household isolation who are asymptomatic or COVID negative may leave their rooms to use household shared facilities or to access the gardens for exercise (see access rules in 'Shared Facilities' section). In addition, asymptomatic or COVID negative students, who find complete isolation too much to bear, can, as a matter of individual risk assessment, choose to meet with other asymptomatic household members in their rooms. They must at all times balance the risks to their own well-being (physical and mental) against those from infection and isolation, and take appropriate precautionary measures such as 2m social distancing, mask wearing, windows open for ventilation etc.</p>
✓	<p>No visitors</p> <p>You must not have any visitors from outside your household into your household.</p>
✓	<p>Shared facilities</p> <p>It is suggested that shared facilities are used by only one household member at a time, including those who are in quarantine, asymptomatic or COVID negative. Those who are COVID positive or symptomatic <u>must</u> use the shared facilities alone.</p> <p>Only use the communal kitchen to prepare breakfast or quick meals, wearing a face mask throughout.</p> <p>Shared facilities must be cleaned after each individual use. Specifically, when using the kitchen, utensils should be cleaned and put away, and surfaces cleaned.</p> <p>For food ordering, see 'Catering' section below. You should arrange with your Quarantine or self-isolation supporter to have food / meals delivered to your room.</p> <p>If you are COVID positive and/or symptomatic, or if your major concern is to avoid infection, you should practice strict isolation, using shared areas of the household as little as possible – maybe the kitchen not at all, and if you ever do, strictly on your own and to prepare food only, wearing a face mask throughout, and returning to your room to eat.</p>

	<p>If you are an asymptomatic household member, do think about how you can support fellow household members who are symptomatic or COVID positive and primarily confined to their rooms.</p>
✓	<p>Outside exercise / Access to the College gardens</p> <p><i>Anyone with COVID symptoms or a positive result is unable to go outside for the duration of their isolation</i></p> <p>Residents of main site College who are in quarantine or isolating as contacts, may use the College Gardens for fresh air and exercise. Students quarantining or isolating in College accommodation elsewhere, may not use the College gardens and should only use the gardens of their accommodation.</p> <p>When accessing College gardens, please follow the guidelines below:</p> <ul style="list-style-type: none"> • Access can take place between 10am -12 noon and 3-5pm every day of the week. • This exercise must be done alone, in the Fellows gardens beyond the archway at the far end of Cloister Court. • The shortest route possible to walk directly to the gardens must be used, and face masks must be worn at all times until reaching the gardens. • Stairs rather than the lifts should be used, with care taken to avoid touching surfaces, and only touching door handles as needed • 2m social distancing must be respected at all times • Exercise must be taken alone i.e. not even with others who are quarantining or isolating; and as much distance must be kept as possible between anyone using the gardens at the same time. • Hand sanitiser must be carried, and hands washed/sanitised before leaving or re-entering the residential household.
✓	<p>Face covering</p> <p>You must wear a face mask outside your room, whether in your household's shared spaces (corridor, toilet and kitchen), on your way to and from the garden.</p>
✓	<p>Catering</p> <p>In addition to food shopping done in town or online by your Household Supporter on your behalf, College kitchens will also be open for take away food. Disposable containers and cutlery should go into your general waste. Please contact the Catering Team if you would like information about making a food order.</p>
✓	<p>Cleaning</p> <p>Cleaning supplies will be left outside the bathroom and kitchen areas for you to use to clean all surfaces you have been in contact with after every use. Additional supplies should be requested from the Accommodation Department.</p>
✓	<p>Store your waste</p> <p>In Cromwell Court and on the main College site, the household's waste (from individual students' rooms and kitchen) must be stored in the household for 72 hours until collected by arrangement with the Accommodation Department.</p> <p>Collection can be made daily between 8am and 4pm.</p>

	<p><u>Additional steps</u></p> <ol style="list-style-type: none"> 1. If symptomatic or COVID positive: At the end of each day, please double bag, tie up and label date of closure of your waste, but store this in your room for a further 72 hours. At the end of the 72 hours, please add to the kitchen waste or if not using the kitchen during your isolation, put outside your door and ask a housemate to add to the kitchen waste for you. 2. If asymptomatic: At the end of each day, please double bag any waste in your central kitchen bin (you can add in your waste from your room). 3. You must store this closed bag for 72 hours within your household before it can be collected. 4. Write the date of closure on the bag – this will need to remain visible (NB you may need to use sellotape to stick on a piece of paper, or insert a slip of paper with date on as you tie the top of the second bag). <p>In College hostels, the household waste should also be stored as above for 72 hours before being placed in the appropriate bin.</p>
✓	<p>No direct access to laundry facilities</p> <p>You will be unable to use any laundry facilities outside of your household during your quarantine or isolation. If needed you can request College bed linen and towels through the Accommodation Department. You should retain all used bed linen in your room until the end of your quarantine or self-isolation period. Detergent for hand washing clothes is also available on request from the Accommodation Department.</p> <p><u>At end of quarantine and self-isolation</u></p> <p>The Accommodation Department will provide you with red bin liners in which you should put the college linen provided to you whilst in quarantine/isolation. Use two to three bags as they are not very strong. Keep the red bags in your room for three days and when this time period has passed, please contact Housekeeping for direction on where to place the bags outside your household.</p> <p><i>If symptomatic and/or COVID positive:</i> You must not use a shared laundry facility for a further 72 hours after your isolation period has ended.</p>
✓	<p>Library books</p> <p>While in quarantine or self-isolating, you should not arrange for any of your library books to be returned. When your period of quarantine or self-isolation ends, you should retain the books you have on loan for at least a further 3 days, even if you have finished with them.</p> <p>You should immediately contact the relevant library if:</p> <ul style="list-style-type: none"> • You need to obtain books, whether they need to be fetched from the shelves or bought for the Library; • You receive a due date reminder, and find that you cannot renew the book on iDiscover; • You receive a recall request asking you to return a book you have on loan because someone else needs it. <p>In each case, contacting the library promptly will enable staff to make a quick adjustment to the system and avoid significant delays and bother.</p> <p>If you would like the UL to subscribe to an electronic book, you can fill in an online request form</p>

	If you have any concerns or questions about library matters, you can email Sidney Library staff .
✓	<p>In the event of an emergency</p> <p>You must follow the standard building evacuation procedure immediately (wearing a face covering) and should aim to remain at least 2 metres distant from all other people throughout the evacuation. Avoid direct hand contact with anything outside your room.</p>
✓	<p>Well-being and Pastoral support</p> <p>The student union, both the undergraduate JCR and the postgraduate MCR, are especially sensitive to the need of supporting their peers during quarantine or self-isolation, and you will find them both proactive in reaching out to you and eager to respond if contacted. Your Tutor and other members of the Tutorial and Pastoral Team are equally available, and one of them will be in touch early in your quarantine to check you are okay, and to discuss with you how to make the quarantine period as easy as possible; and the University COVID-19 pages on wellbeing also offer useful advice.</p>

E: Resident Fellows or Associates (isolation procedure)

Resident Fellows (and any household members) who are symptomatic, have tested COVID-positive, or have been instructed to self-isolate, must complete the following actions:

1. Fill in the [Sidney Sussex COVID-19 notification form](#) immediately when entering self-isolation. You must fill in the [University's COVID monitoring form](#) as soon as possible. Contact NotifyHealth@sid.cam.ac.uk if you require assistance from the College at any stage.
2. The College will soon make contact via email once you have filled in the [Sidney Sussex COVID-19 notification form](#). The College will check that you have everything you need for the isolation period and will arrange for appropriate signage to be delivered to the household. The household is collectively responsible for displaying the signage in the appropriate locations (outer door of room, bathroom and kitchen). See example signage at the end of this protocol.
3. If you are symptomatic and/or have tested COVID-positive, you must self-isolate for **ten full days** from the date of first symptoms or the swab date of the positive test. Any household members must also isolate for ten full days from the date you experienced your first COVID symptoms or from the swab date of your positive test. The reverse will apply if a member of your household is symptomatic and/or tests positive (ie they must self-isolate for ten days and you must also self-isolate for ten days).
4. If you are instructed to self-isolate and you are asymptomatic, you must self-isolate for ten full days from the date you were asked to self-isolate. Members of your household do not also need to self-isolate in this situation unless you receive a positive test or become asymptomatic.
5. If you become symptomatic (a high temperature, a new, continuous cough, a loss or change to your sense of smell or taste) you should immediately arrange to be tested by following the guidance outlined in the [University's Stay Safe Campaign](#). Please do not hide any symptoms which might be COVID-19.
6. You should keep the College and University updated with **any** changes to your status (whether you become symptomatic OR you have received a test result) by resubmitting in [Sidney Sussex COVID-19 notification form](#) AND updating the [University's COVID monitoring form](#).

F: College Staff and contact information

Staff will not enter your household during the isolation period where there is at least one COVID-positive and/or symptomatic student unless there is an emergency (e.g. plumbing issues). In all other cases, staff will enter shared kitchens or bathrooms wearing PPE.

Emergency evacuations should follow standard procedure, while wearing a mask (if at all possible) and maintaining social-distance.

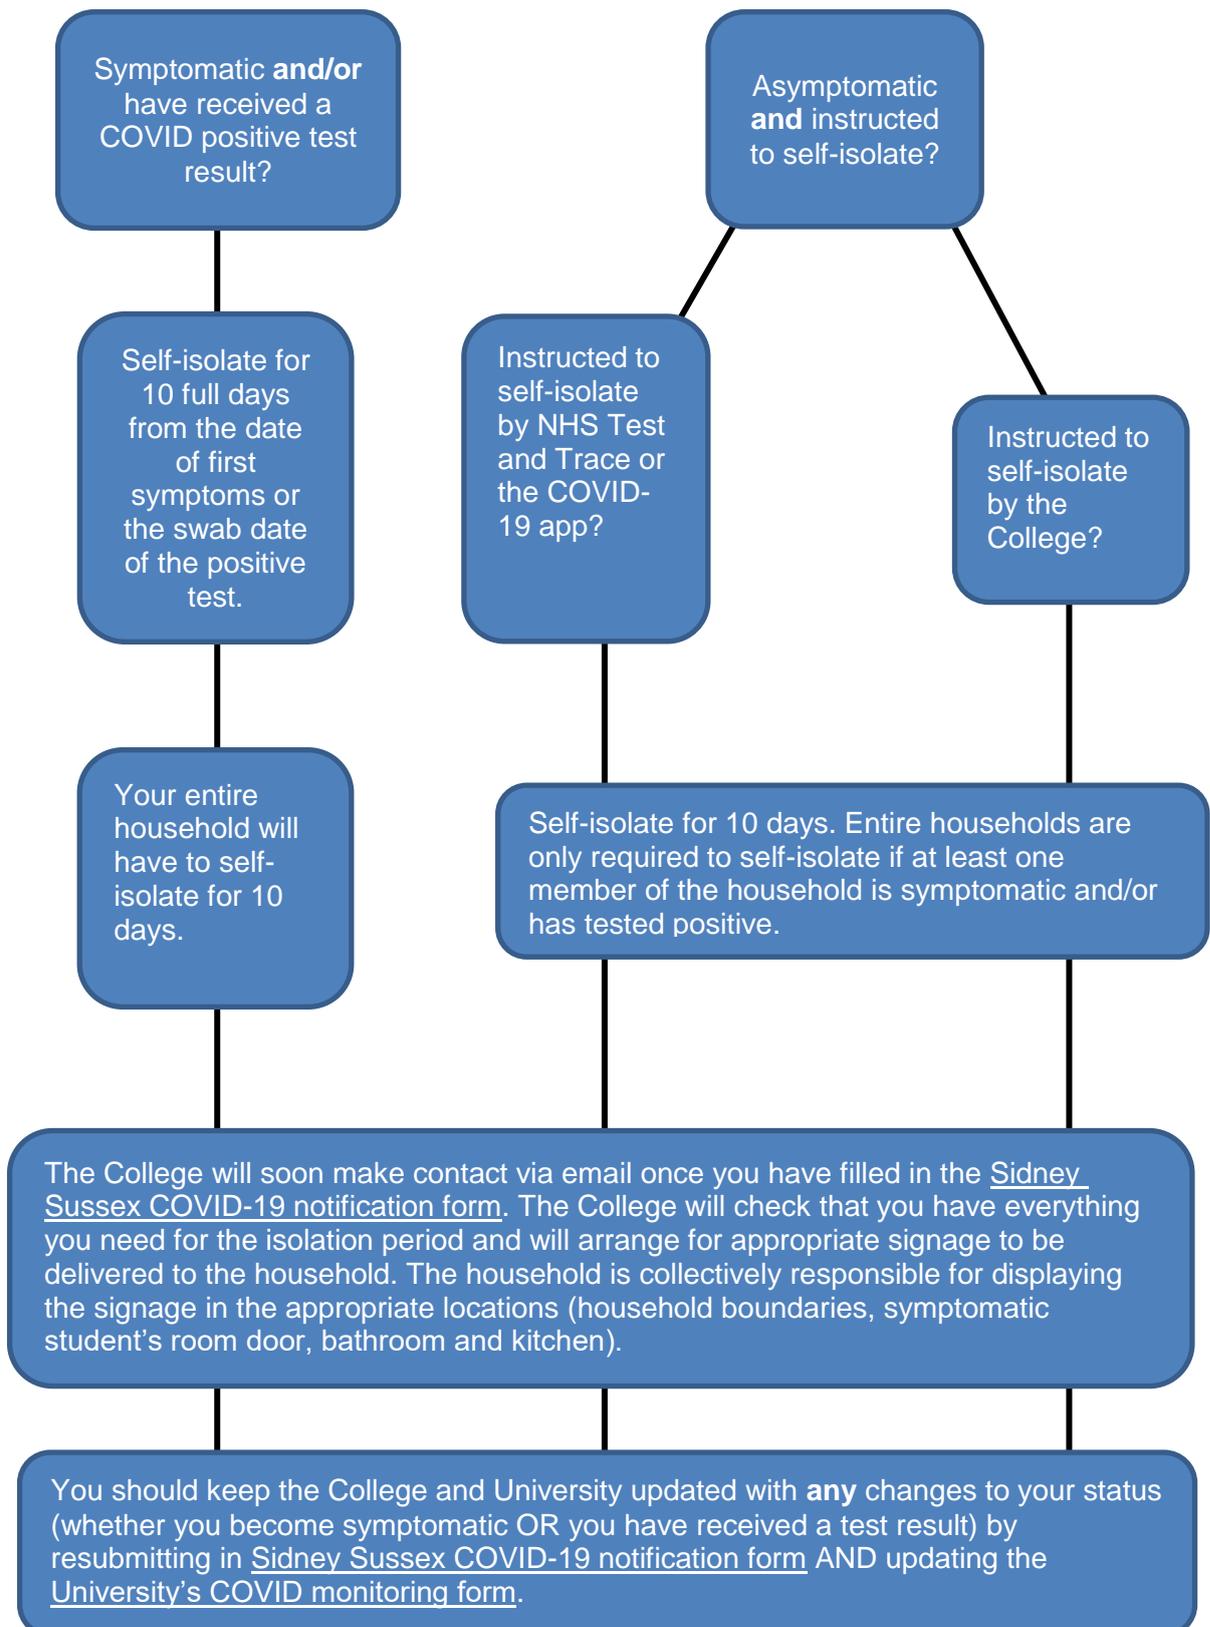

Any queries or concerns please ring or email:

- College COVID-19 response team: notifyhealth@sid.cam.ac.uk
- Porters' Lodge: 01223 (3) 38800 porters@sid.cam.ac.uk
- Head of Accommodation: 01223 (3) 38880 headofaccommodation@sid.cam.ac.uk
- Tutorial Office: tutorial@sid.cam.ac.uk
- College Nurse: nurse@sid.cam.ac.uk
- Domestic Bursar: domesticbursar@sid.cam.ac.uk

Further key information is regularly updated on the:

- [UK Government's quarantine and self-isolation advice web pages](#)
- [University's COVID-19 Information for Students Arriving from Abroad pages](#)
- [College's COVID-19 \(Support and Information\) Moodle pages](#)
